School Report.

The number of scholars registered in our schools for the year is eighty-six.

The number of children enumerated by the Truant Officer between the ages of five and sixteen, eighty.

New readers have been supplied for all the schools.

In submitting our report we wish to say that the condition of the schools has proved very unsatisfactory.

Unavoidable circumstances have compelled frequent changes in teachers, which cannot but help being detrimental to any school.

We wish especially to call the attention of all parents to the fact that the laws of the state require attendance at school on every school day during the year. Our registers show that this has not been regarded, and it is only by a hearty co-operation on the part of the parents and pupils that the teachers can accomplish best results. It would also be helpful if the parents would visit the schools from time to time and note the progress of the children.
